2020 International Meeting

WILD & WONDERFUL AFRICA: TANZANIA AND BEYOND

MAIN SAFARI | FEBRUARY 29-MARCH 8, 2020

PRE-TRIP AND POST-TRIP EXTENSIONS AVAILABLE

Dear ABOTA Friends:

Awesome, amazing and wonderfully wild were our reactions to our site visit to East Africa! The natural beauty of the people, landscape and animal life stimulated our senses beyond measure. We are excited to invite you to join us for the ABOTA 2020 International Meeting in Tanzania.

The Pre-Trip Option begins with two days of relaxation and exploration at the brand-new Melia Arusha Resort in Arusha, a bustling, international city located at the base of volcanic, Mt. Meru and near Africa's highest peak, Mt. Kilimanjaro. We then continue with two-days of safari in the Tarangire National Park. This vast landscape is dotted with magnificent baobab trees and a wide variety of wildlife including its large elephant population. In Tarangire, you will have a choice of two award-winning and stunning properties, the Tarangire Treetops and the Sanctuary Swala.

The Main Safari includes two days in Arusha and the crown jewels in the Northern Tanzania safari circuit, the Ngorongoro Crater and the Serengeti National Park. For those not participating in the Pre-Trip, our journey also begins in Arusha. Because of its proximity to Kilimanjaro Airport and safari reserves, Arusha is a busy gateway for people from all corners of the world, embarking upon amazing and unique travel experiences. Its attractions include world-famous coffee farms, the Arusha Cultural Heritage Center, and the United Nations International Criminal Tribunal. Our home for these two days will be the newest luxury hotel, the Melia Arusha Resort, expected to open soon. Our next stop for two days will be the pre-historic natural wonder known as the Ngorongoro Crater, where you will have a choice between two different lodges—the legendary Ngorongoro Crater Lodge and the stunning Serena Safari Lodge. Ngorongoro Crater is the largest unflooded and unbroken caldera. It is lush with vegetation and home to thousands of unique and diverse wildlife, such as zebras, wildebeests, giraffes, elephants, lions, hyenas, rhinos and even flamingos. The ecosystem that developed in this eroded volcanic crater is absolutely remarkable! The group from **The Pre-Trip** will join us here. Our last stop on **The Main Safari** will be the Serengeti National Park, home to the greatest wildlife spectacle on earth—the great migration of wildebeests and zebras. Vast, rich grasslands and plenty of water sources attract herds of wildebeests and zebras and the predators that hunt them along with the almighty elephants. Game viewing is the major highlight of the Serengeti but the Four Seasons is a destination on its own with its beautiful accommodations and grounds, heavenly spa, and exquisite culinary experience. Our four-night stay will be truly memorable.

Our **Post-Trip Option** is Zanzibar—the exotic and alluring island off the coast of the mainland in the breathtaking turquoise waters of the Indian Ocean. Boasting some of the most beautiful white-sand beaches in the world, Zanzibar is the perfect ending with three days of relaxation, history and culture. We spend the first day in the UNESCO World Heritage City of Stone Town. Zanzibar's capital city has been described as an "exotic multicultural melting pot." Whether enjoying historical architecture, or exploring the narrow winding streets, or simply savoring a delicious meal overlooking the dhow boats, Zanzibar is a must-see! We then travel to the north coast to experience three nights of beach and coastal cuisine at the luxurious and eco-friendly, Zuri Resort.

Mountain Gorilla trekking in Rwanda is a **Post-Trip Option** but can also be a pre-trip option. Please contact Carrousel Travel for more details or for any custom travel arrangements.

Splendid African sunsets and sundowners are awaiting us! We hope you will join us on this wild and wonderful journey through Tanzania and beyond.

With warmest regards,

Judy and Luther Battiste

Africa

OPTIONAL PRE-TRIP
TARANGIRE NATIONAL PARK*
February 27-March 2, 2020

OPTIONAL POST-TRIP
RWANDA GORILLA TREKKING**
March 8-11, 2020

Rwanda

SERENGETI
NATIONAL PARK

NGORONGORO
CRATER

ARUSHA

TARANGIRE
NATIONAL PARK

Tanzania

ZANZIBAR

MAIN SAFARI
**ARUSHA, NGORONGORO CRATER
+ SERENGETI NATIONAL PARK**
February 29-March 8, 2020

OPTIONAL POST-TRIP
ZANZIBAR
March 8-11, 2020

*Tarangire Pre-Trip group will include two nights in Arusha (same schedule and inclusions as in the Main Safari) and will meet up with the Main Safari in Ngorongoro Crater. **Rwanda Gorilla Trekking can also be done as a pre-trip. Contact Carrousel Travel for options and details.

Tarangire Treetops or Sanctuary Swala

TARANGIRE NATIONAL PARK

FOUR NIGHTS

ELEVATION: 3,555 ft

- » Visit Tarangire National Park as a pre-trip to the Main Safari (two nights in Arusha and two nights in Tarangire at your choice of either Tarangire Treetops or Sanctuary Swala)
- » Live the dream high in the trees in your very own tree house (20 total) at Tarangire Treetops lodge
- » Settle into seclusion amongst giant acacia trees and ancient baobab trees in one of the 12 luxury canvas tents at Sanctuary Swala
- » Following your stay at either Tarangire Treetops or Sanctuary Swala, join the Main Safari at Ngorongoro Crater Lodge

The Arusha schedule and inclusions will be the same for both the Pre-Trip group and the Main Safari group but over different dates. The Pre-Trip group will meet up with the Main Safari group at the Ngorongoro Crater.

In Tarangire National Park, the wildlife only tells half the story. Great stands of epic thousand-year old baobab trees, an abundance of sun-blistered termite mounds, grassy savannah plains, spectacular sunsets, vast swamps and the meandering Tarangire River (cutting the park in two) are just as enthralling. Nowhere else in Tanzania will you find as many baobab trees as you will here. Known as the tree of life, the baobab can live upwards of 600 years and gets its striking and distinct shape from the fact that it can store nearly 300 gallons of water in its bloated trunk. One of Tarangire's claims to fame is its large elephant population - certainly the largest in Tanzania. With its wide variety of habitats and food sources, the park is also popular with birds (over 550 species) and birdwatchers.

Melia Arusha Resort
ARUSHA

TWO NIGHTS

ELEVATION: 4,600 ft

- » Grand opening of Melia Arusha luxury resort will be in April 2019
- » 174 rooms spread over 29-acres in the heart of Arusha's city center
- » Relax in this sanctuary in the bustling city and enjoy the beautiful grounds and facilities before heading to the bush on safari
- » Facilities will include a swimming pool, spa, fitness center and a few different dining spaces including a rooftop restaurant
- » Gather for a cocktail and admire the stunning artwork (maybe ship a piece home) at the Arusha Cultural Heritage Center and support the local community at one of the Shanga shops

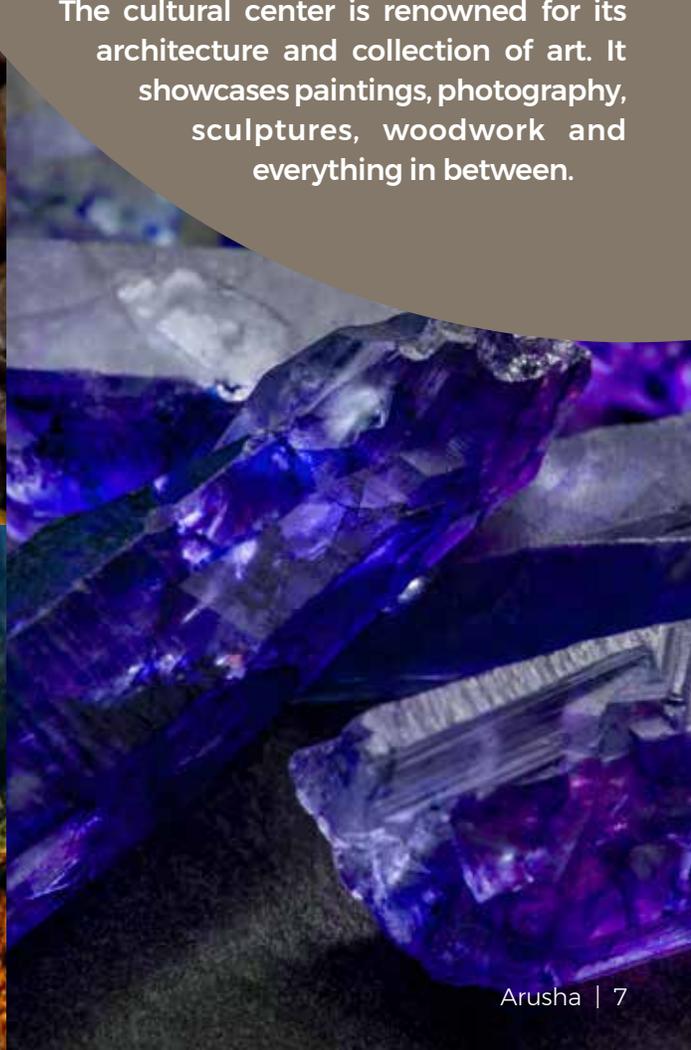

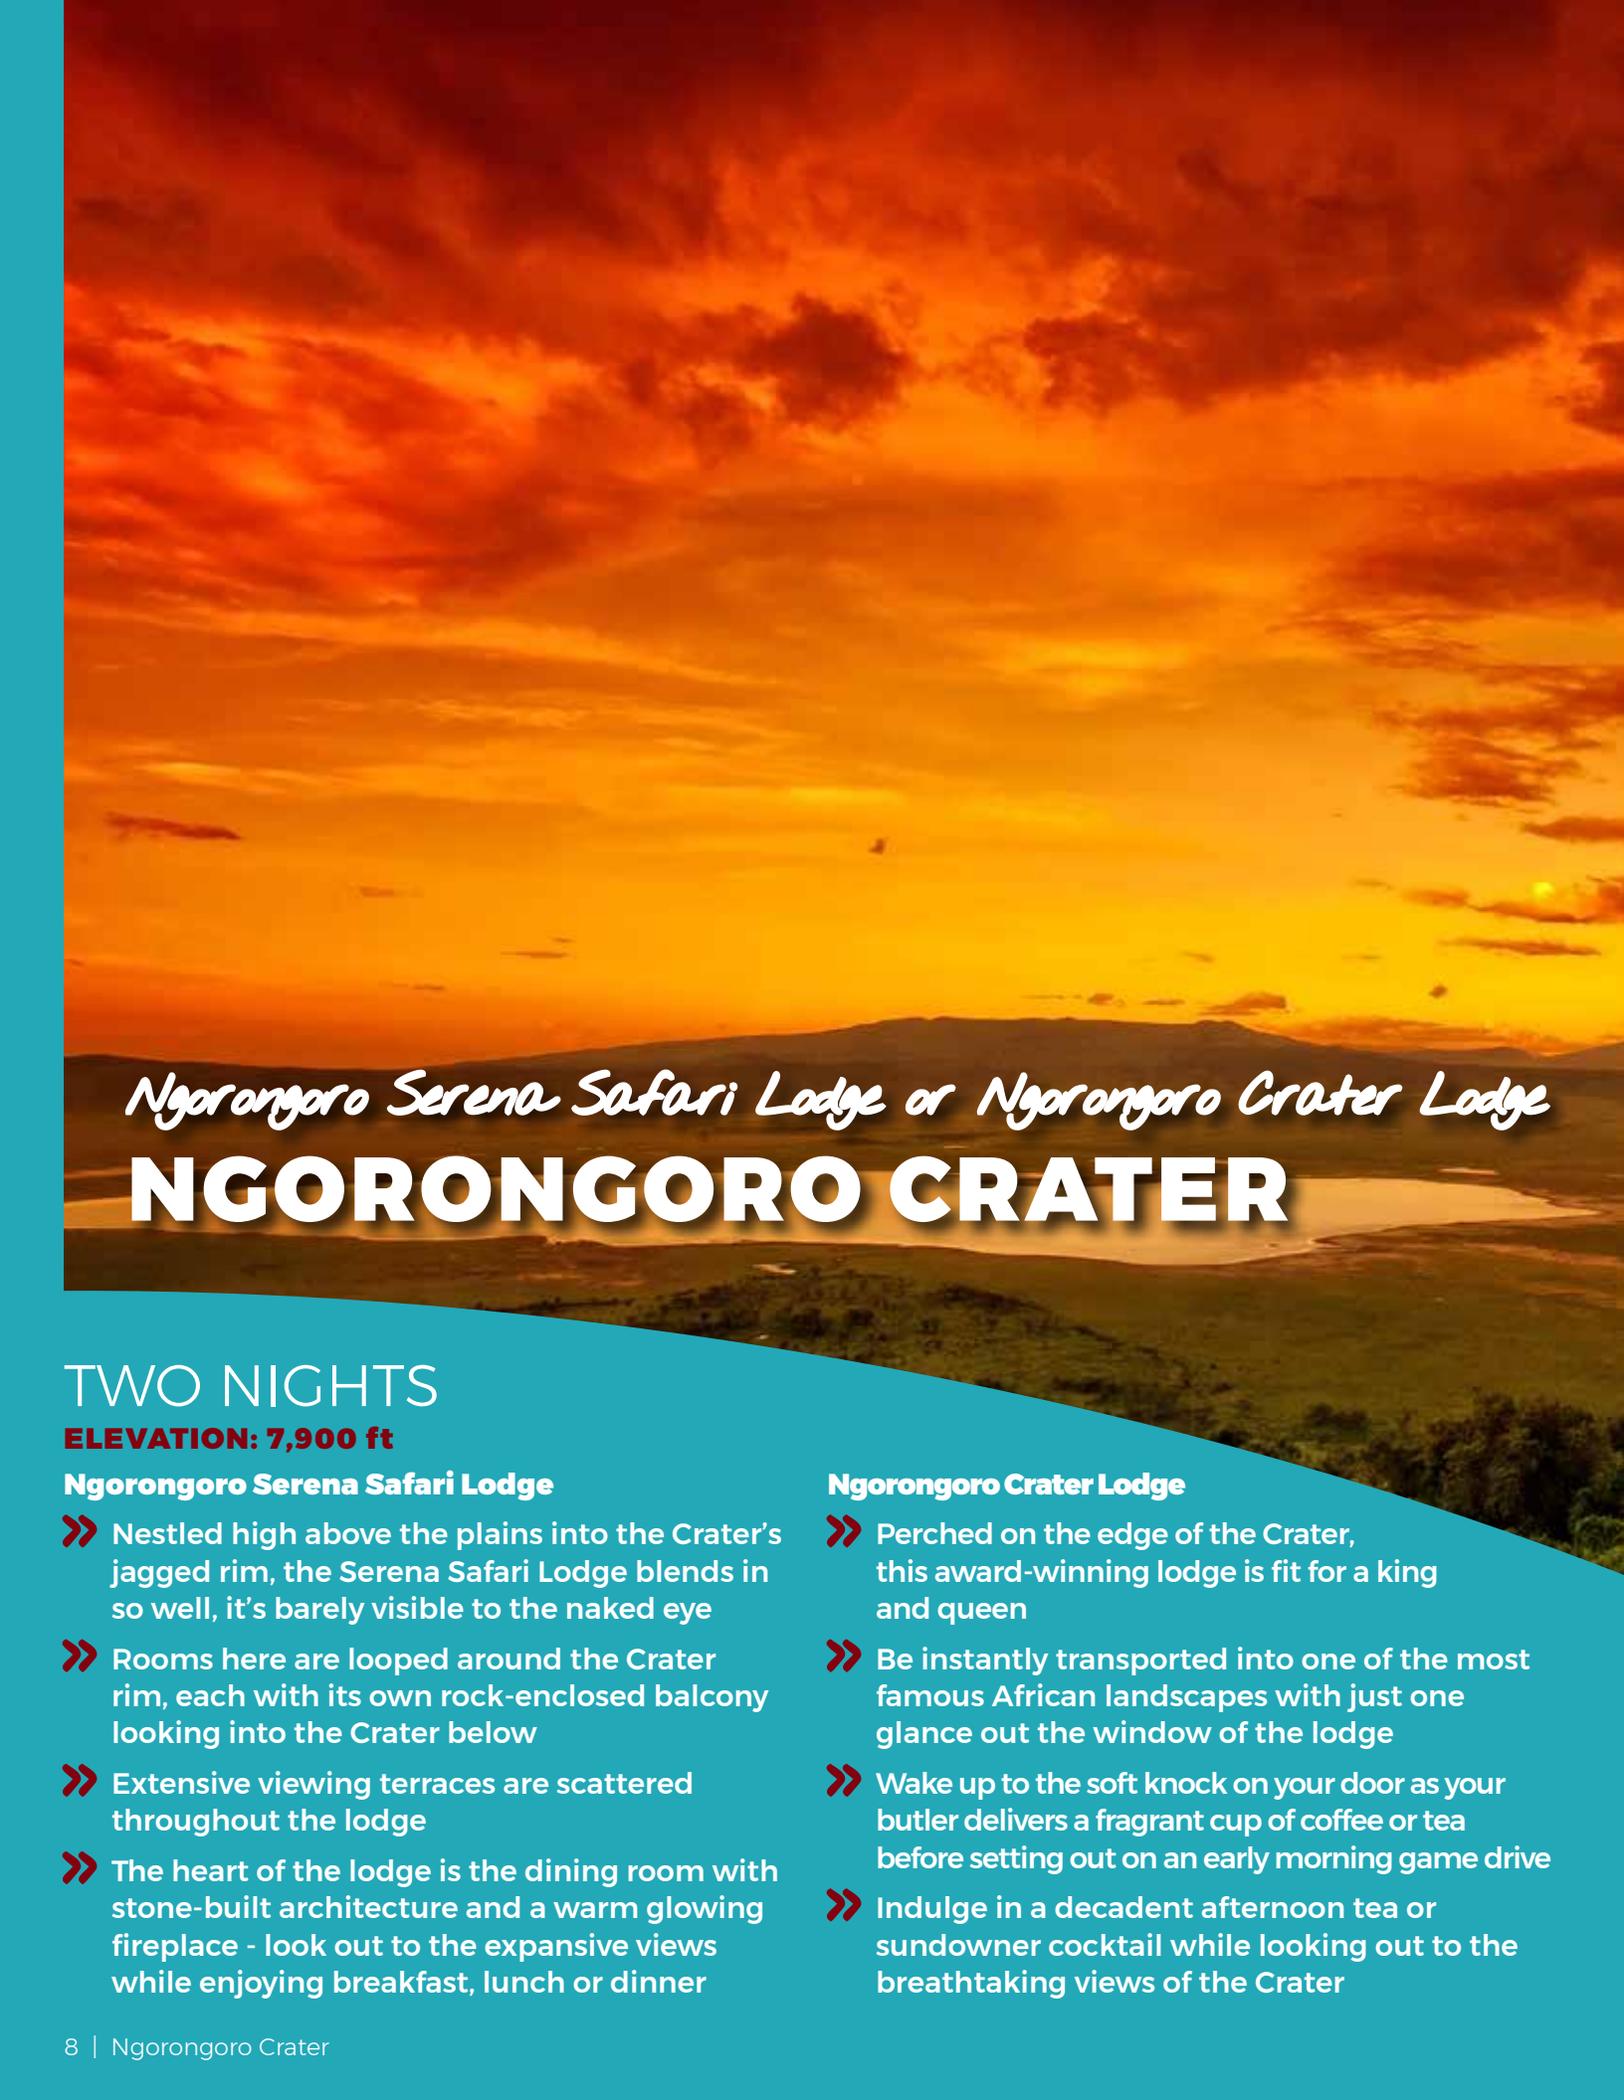

Located near the base of Mount Meru, Arusha is Tanzania's main safari gateway and the third largest city in the country. Nicknamed the Geneva of Africa, Arusha is an international diplomatic hub and has hosted many high-level conferences. In 1994, the International Criminal Tribunal for Rwanda was established in Arusha to investigate and prosecute individuals responsible for the genocide that took place during Rwanda's civil war.

Shanga (Swahili for bead) is a brand and social enterprise founded in Arusha in 2007. Handmade products such as scarves, glassware, jewelry, home goods and more are available for purchase and are all made by artisans with disabilities who would not otherwise be employed. A visit to Shanga can include a workshop tour to see artisans in action.

Arusha Cultural Heritage Center is the place to buy distinct and good quality artwork that will remind you of your travels through Tanzania. The cultural center is renowned for its architecture and collection of art. It showcases paintings, photography, sculptures, woodwork and everything in between.

Ngorongoro Serena Safari Lodge or Ngorongoro Crater Lodge
NGORONGORO CRATER

TWO NIGHTS

ELEVATION: 7,900 ft

Ngorongoro Serena Safari Lodge

- » Nestled high above the plains into the Crater's jagged rim, the Serena Safari Lodge blends in so well, it's barely visible to the naked eye
- » Rooms here are looped around the Crater rim, each with its own rock-enclosed balcony looking into the Crater below
- » Extensive viewing terraces are scattered throughout the lodge
- » The heart of the lodge is the dining room with stone-built architecture and a warm glowing fireplace - look out to the expansive views while enjoying breakfast, lunch or dinner

Ngorongoro Crater Lodge

- » Perched on the edge of the Crater, this award-winning lodge is fit for a king and queen
- » Be instantly transported into one of the most famous African landscapes with just one glance out the window of the lodge
- » Wake up to the soft knock on your door as your butler delivers a fragrant cup of coffee or tea before setting out on an early morning game drive
- » Indulge in a decadent afternoon tea or sundowner cocktail while looking out to the breathtaking views of the Crater

Encompassing three spectacular volcanic craters, the Olduvai Gorge, huge expanses of savannah, forest and bush land, the Ngorongoro Conservation Area is the flagship of Tanzania's tourism industry. It is also the only place on earth where mankind and wild animals coexist in harmony.

The jewel in Ngorongoro's crown is a deep, volcanic crater, the largest unflooded and unbroken caldera in the world. Some maintain that before it erupted, it would have been higher than Mount Kilimanjaro, the highest peak in Africa.

Today, long since having collapsed and eroded, it is an extensive highland area with the famous 1,968 foot deep Ngorongoro Crater as its focal point. Nearly three million years old, the ancient caldera shelters one of the most beautiful wildlife havens on earth. Endangered black rhino are protected within its rim, giant tusked elephants wander the forests, black-maned lions stalk the grasslands, and flamingos crowd the soda lakes.

It's hard to put this experience into words. A few that fit are: amazing, heart-stirring, hair-raising, astonishing...they all apply to the stunning ethereal blue-green vistas of the Ngorongoro Crater. But as wonderful as the views are from above, the real magic happens when you get down inside and drive among an unparalleled concentration of wildlife, including the highest density of both lions and overall predators in Africa. Put simply, this is one of Africa's premier attractions and this world-renowned natural wonder is deservedly a UNESCO World Heritage site.

Four Seasons Serengeti

SERENGETI NATIONAL PARK

FOUR NIGHTS

ELEVATION: 4,920 ft

- » Venture out on thrilling Serengeti game drives and rare opportunities to connect with the local people and culture
- » Retreat to your very own luxurious sanctuary at the end of the day - complete with modern comforts and views of the Serengeti
- » Float your stresses away in the outdoor infinity pool overlooking an active watering hole and watch majestic elephants gather for an afternoon drink
- » Re-hydrate, restore and re-energize in one of six free-standing spa treatment pavilions
- » Search for the Big Five (African lion, African elephant, Cape buffalo, African leopard and rhinoceros) in East Africa's world-famous wildlife sanctuary, the Serengeti National Park - home to the continent's most diverse and largest concentration of plains animals
- » Experience authentic African cuisine at the Lodge. At Boma Grill, sample regional dishes such as ugali (cornmeal) and enjoy live performances by traditional Maasai warriors

Few people forget their first encounter with Serengeti National Park. Perhaps it is the view from the summit of Naabi Hill at the park's entrance, from where the Serengeti's grasslands appear to stretch to the very ends of the earth. Or maybe it's a coalition of male lions stalking across open plains, their manes catching the breeze. Or it may be the epic migration of animals in their millions, following the ancient rhythm of Africa's seasons. Whatever it is, Serengeti National Park is one of the wildest places in the world and one of the greatest wildlife-watching destinations on earth.

It's here, on the vast plains of the Serengeti, that one of earth's most impressive natural cycles has played out for eons as hundreds of thousands of hoofed animals, driven by primeval rhythms of survival, move constantly in search of fresh grasslands. The most famous, and numerous, are the wildebeest (of which there are some 1.5 million) and their annual migration is the Serengeti's calling card. There are also resident wildebeest populations in the park and you'll see these smaller but still impressive herds year-round. A few black rhinos in the Moru Kopjes area offer a chance for the Big Five, although they're very rarely seen.

The 5,700 square mile Serengeti National Park is also renowned for its predators, especially its lions. Hunting alongside the lions are cheetahs, leopards, hyenas, jackals and more. These predators feast on zebras, giraffes, buffaloes, Thomson's and Grant's gazelles, topis, elands, hartebeest, impalas, klipspringers, duikers and so many more. It's an incredible birdwatching destination, too, with over 500 species.

Zuri Zanzibar Resort
ZANZIBAR

THREE NIGHTS

ELEVATION: 49 ft

- » Meander through the winding streets of Stone Town after a lunch bursting with local flavors and spices
- » Drive an hour north from bustling Stone Town and the airport and arrive at the resort, set on the northwest shores of the island
- » Relax post-safari and delight in a change of scenery in one of the 55 bungalows, suites or villas in this newly-opened beachfront resort (June 2018) with its contemporary yet thoughtful design and custom curated local furniture and art
- » Swim any time of the day - free of any tide impact - the beach and sunsets are always stunning
- » With an all-inclusive concept, dine on international, fusion and local cuisine made with the freshest seafood, ingredients and spices at any of the 3 restaurants or order a hand-crafted cocktail at any of the 4 bars
- » Slip into full relaxation mode at the wellness center

Zanzibar. The name alone conjures up images of an exotic far-flung place. Only a 20-minute flight from mainland Tanzania but a world away with its sparkling, tranquil beaches, aromatic spice farms and diverse mash-up of cultures and architecture. A semi-autonomous territory of Tanzania with its own government, the island has been influenced by the Arabs, Persians, Indians, Portuguese, Chinese, British and African mainland for centuries. All of this is still very evident today in the language, religion and especially the food.

Mountain Gorilla View Lodge or Sabyinyo Silverback Lodge
RWANDA GORILLA TREKKING

THREE NIGHTS

ELEVATION: 4,800 ft

In colonial times, the thrilling beauty of Rwanda’s rolling mountainous landscapes earned it the sobriquet “The Land of a Thousand Hills.” After independence, this small Central African nation leaped to fame as the Land of “Gorillas in the Mist,” adopted home of Dian Fossey and the most important refuge for the rare mountain gorilla.

Mountain Gorilla View Lodge

- » Experience an eco-lodge set on the foothills of the Virunga Mountains - a chain of volcanoes
- » Cozy up to the fireplace in one of the 30 cottages after a day of trekking in search of the elusive mountain gorillas
- » Stroll through the lush, well-manicured gardens right at the lodge

Sabyinyo Silverback Lodge (upgrade option)

- » Escape to a serene forest retreat set on the foothills of the Virunga Mountains - a chain of volcanoes
- » Take in the views of the volcanoes and surrounding countryside from one of the six cottages or two suites
- » Hike into the Volcanoes National Park in search of the majestic mountain gorilla, the enchanting golden monkeys and a variety of birds

IMPORTANT NOTE ABOUT PHYSICAL REQUIREMENTS

Trekking conditions differ greatly according to the location of the gorillas, so the exact level of difficulty for a specific trek is impossible to define in advance. On an excursion, it is entirely possible that you will find the gorillas quite quickly and be back at your hotel for lunch. It is also entirely possible that you will have to hike three or four hours (or sometimes even longer) each way and will make it back to your hotel just before dark.

Because it is impossible to predict the length and difficulty of any single trekking excursion, this program should not be attempted by anyone who is not in very good physical condition. Because of the climbing and bending required as you make your way through the thick foliage, gorilla trekking should not be attempted by anyone who has any kind of heart or back problem. Only those who are absolutely 100% fit and are capable of walking long distances at high altitude over slippery, muddy terrain should attempt gorilla trekking. Trekking is likely to involve scrambling through, over, and under dense undergrowth with nettles, barbed vines, and bamboo thickets. Correct footwear and clothing are essential. It is recommended that you build up the strength and endurance of your leg muscles by walking, stair climbing, bicycling, knee bends, and similar exercises before you leave home. This should always be done under the supervision of your doctor.

Travelers with physical disabilities and those who require frequent or ongoing medical attention should advise Carrousel Travel of their health situation at the time of booking.

**If you are interested in doing both Rwanda Gorilla Trekking and Zanzibar, please contact us for more details and options.*

Lodges

TARANGIRE TREETOPS

TARANGIRE NATIONAL PARK

- » 20 Individual treehouses
- » Elevated accommodations with large bedrooms
- » Open-front views across the Tarangire plains from an expansive, private balcony
