ITINERARY

DAY 1 THURSDAY, MAY 14, 2026 **ANCHORAGE**

Depart from Minneapolis for Anchorage. Upon arrival, transfer to the Hilton Anchorage where you will check in, and the remainder of your day is free.

DAY 2 FRIDAY, MAY 15, 2026 **ANCHORAGE + SEWARD** Depart at 8:00 pm

Check out of your hotel and transfer to Seward, Alaska. Edging the Kenai Peninsula and framed by the glacier-covered Kenai Mountains that run along its southeastern spine, Seward is a rustic port town whose grand terrain will leave you breathless. Situated at a grand natural intersection where bays and fjords stretching south to the Pacific meet the crested wilderness — and connected to communities extending northwards via the famously scenic Seward Highway — Seward is emblematic of the wildly beautiful state that is Alaska.

This afternoon, board the *Celebrity Summit* and settle in before embarkation.

DAY 3 SATURDAY, MAY 16, 2026 **HUBBARD GLACIER** Scenic Cruising 3:00 pm-6:00 pm

The Hubbard Glacier is located about 30 miles north off the coast of Yakutat and is by far one of Alaska's most exciting natural treasures. On your cruise to Hubbard Glacier, enjoy incredible picture-perfect views of this glorious mount of ice from about every angle on your ship. Named after Gardiner Hubbard, the founder and president of the National Geographic Society, Hubbard Glacier is the longest tidewater glacier in the world. Dramatically massive at about 7-miles wide, 76-miles long and as tall as a 30-story building above the waterline, it's the largest river of ice in North America. How this magnificent block came to form begins about 400 years ago from the snowfalls on the slopes of Mount Logan. While most of the world's glaciers are retreating, the Hubbard Glacier has continued to thicken over the years and on rare occasion will partially block Russell Fjord, temporarily damming its passage.

Cruise Hubbard Glacier and experience the wilds of Alaska as your ship makes its way through icy waters turning from Yakutat Bay into the narrow Disenchantment Bay to come face-to-face with the towering Hubbard Glacier. The strong currents and riptides that flow between Gilbert Point and the face of the glacier cause calving to occur on daily basis, sending massive chunks of ice crashing into Disenchantment Bay. Witness this awe-inspiring phenomenon onboard a Hubbard Glacier cruise through the misty, chilled air of the Gulf of Alaska. Our dedicated onboard naturalist narrates the experience and keeps an eye out for the whales, harbor seals, and otters that hunt and play in the waters of Yakutat Bay. It's an adventure of a lifetime.
